

# Class Valentine Checklist

Every kid, every card, every sticker, on one page

jentryedit.com

Filling out a full class set of Valentines is easy to start and easy to lose track of halfway through. Write the class list once, then check each kid off as you go so nobody gets missed and you know exactly when the whole set is **ready for the party**.

## Two things that save a redo

Add **two or three extra cards** for last-minute additions or a new kid, and double-check tricky name spellings against the class list before you seal the envelopes. The gum seals need a little moisture, so keep a damp paper towel handy for the last step.
